Hyderabad,Telangana, India

EDUCATION

Matrusri Engineering College, Saidabad, Hyderabad, 500059.	2023-2027
Bachelor of Engineering(B.E) in Information Technology.	CGPA : 8.3
Sri Chaitanya Junior College, R.K Puram, Hyderabad, 500035	2021-2023
Intermediate MPC	Percentage: 93.8
Abhyas Techno High School, Santosh Nagar, Miryalaguda, 508207	2020-2021
SSC- Class X	GPA: 10.0

PROJECTS

Simple Portfolio

- Developed a responsive portfolio website using React.js to showcase projects, skills, and professional profile. [Portfolio](#)

KrishiAI - AI-Powered Smart Advisory for Hill-Region Farmers

- Developed Krishi AI, a smart agriculture mobile application using data-driven techniques to assist farmers in managing unpredictable rainfall and crop risks.
- Integrated features like rainfall forecasting, soil health analysis, and ML-based recommendations to optimize sowing, fertilization, and market decisions. Aimed at reducing post-harvest losses and improving productivity through real-time insights.

TravelMate - Backend project developed using Django framework

- TravelMate is a travel booking and destination management platform built using Django, where users can:
- Explore popular travel destinations, View detailed travel packages with pricing, accommodation, transport, and inclusions, Book travel packages online, Manage bookings through a personalized dashboard, Track booking status and travel plans seamlessly

LifeLink Network - AI-Based Blood and Organ donor management System

- LifeLink is an AI powered Blood and Organ donor management System where it is a web application built with React+Django+SQLite.
- This project helps to connect blood, organ donors to recipients/patients on a location based search and with AI matching logic. The recipient can directly contact with the donor which helps on time blood and organ donation to save lives.

CERTIFICATIONS

1. Generative AI with LLM (Coursera)
2. AWS-Generative AI Virtual Internship (Eduskills)
3. Prompt to Prototype (Google)
4. LLM Engineering (Udemy) - Pursuing*
5. AIML Virtual Internship(Black bucks)
6. AIML Virtual Internship (ShadowFox)

ACHIVEMENTS

1.Runner Up in Datanyx 2025 - Datanyx is a 24 hours Datathon conducted by Muffakam Jah College of Engineering, Hyderabad. Our team was runner up of the event in the domain **Agro Tech**.

SKILLS

C, Python, Java, DSA, AIML, LLM's, RAG, Python Full Stack Development.
